About the author	61

Preface :

"Alzheimer's disease (AD), also referred to simply as Alzheimer's, is a chronic neurodegenerative disease that usually starts slowly and worsens over time. It is the cause of 60–70% of cases of dementia. It most often begins in people over 65 years of age, although 4% to 5% of cases are early-onset Alzheimer's which begin before this.

The most common early symptom is difficulty in remembering recent events (short-term memory loss). As the disease advances, symptoms can include problems with language, disorientation (including easily getting lost), mood swings, loss of motivation, not managing self care, and behavioural issues."

https://en.wikipedia.org/wiki/Alzheimer%27s_disease

In Chinese astrology, the last time span before death is assigned to the element water (Mercury). Since Alzheimer's disease occurs at a high age of 65, Mercury must play a major role.

Mercury's influence is doubled, as Mercury is also assigned to brain and memory. Childhood memories or long-term memory could be assigned to the moon because the moon plays a major role in childhood.

Short-term memory (♀), Long-term memory (☽), loss (Ψ)

Disorientation : ♀/Ψ

Loss of motivation : ☽/Ψ

Not managing self care, and behavioural issues : ☽/Ψ

First problem in this research is that some birth times are controversial.

I've checked the birth times, which are controversial, and the ones I believe are the right ones to be taken.

Second problem is that most birth times are not on minutes exactly. That's why I only used harmonic 16. If you are looking for a planetary picture, then you should investigate harmonic 16, 64, 256, 1024 and 4096. Because of the speed of the moon one needs on the second-precise birth time for harmonic 4096, here in this case, because the moon is involved.

Third and main problem is that the onset of the disease or diagnosis date at least monthly is not detectable. Mostly given only annually or undetectable date, such as; "last year of his/her life he/she had suffered from Alzheimer's disease"

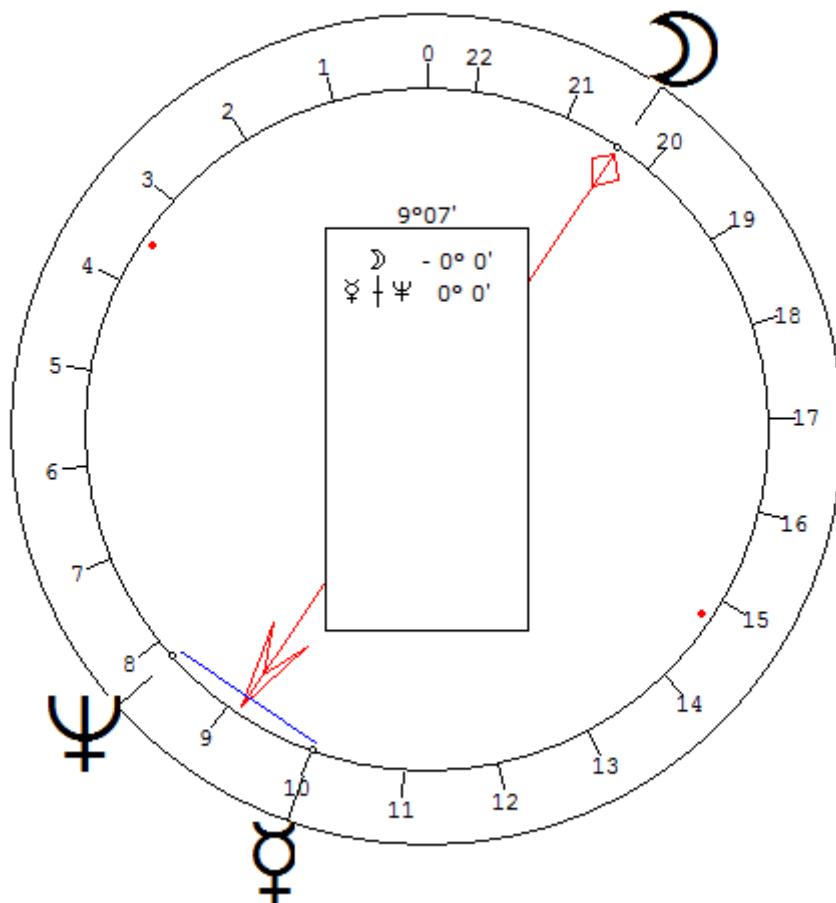

Therefore one should still perform with confirmed birth times and diagnosis data with harmonic 64,256,1024 and 4096 further researches.

According to my research, in the Alzheimer's disease moon, Mercury and Neptune play very important role. In most cases, the horoscope owner in the radix MO = ME/NE (or NE = MO/ME or ME = NE, or ME = MO/NE).

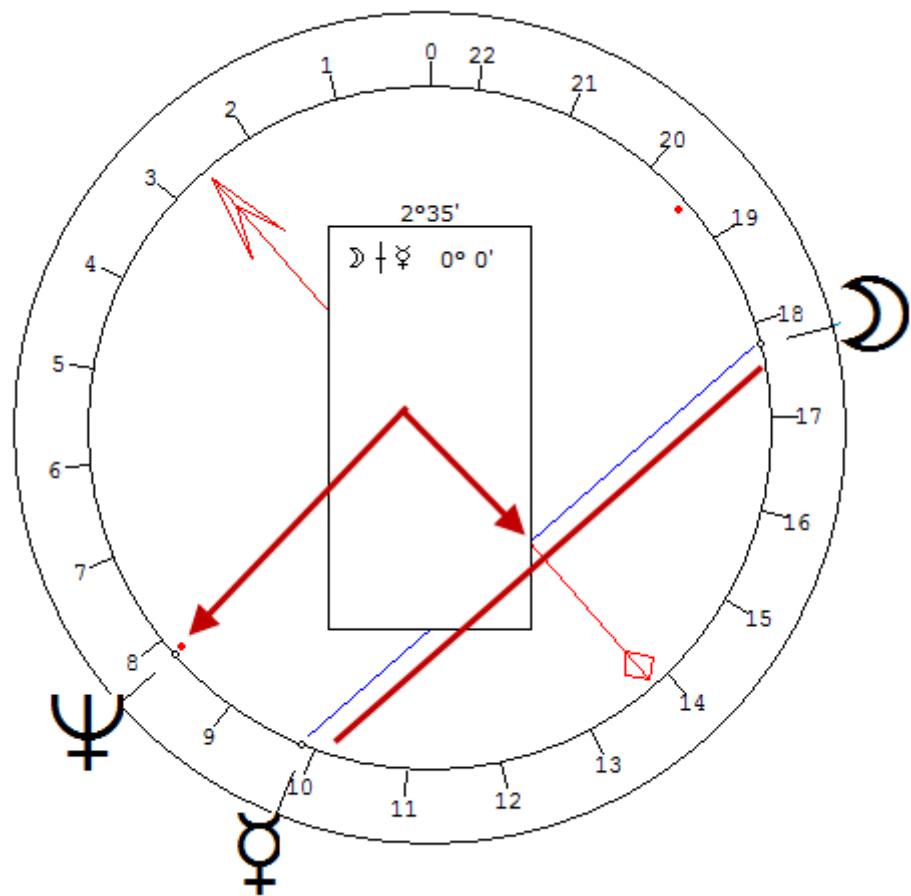

It is important that the Moon, Mercury and Neptune are connected and form a planetary picture.

Possible variations :

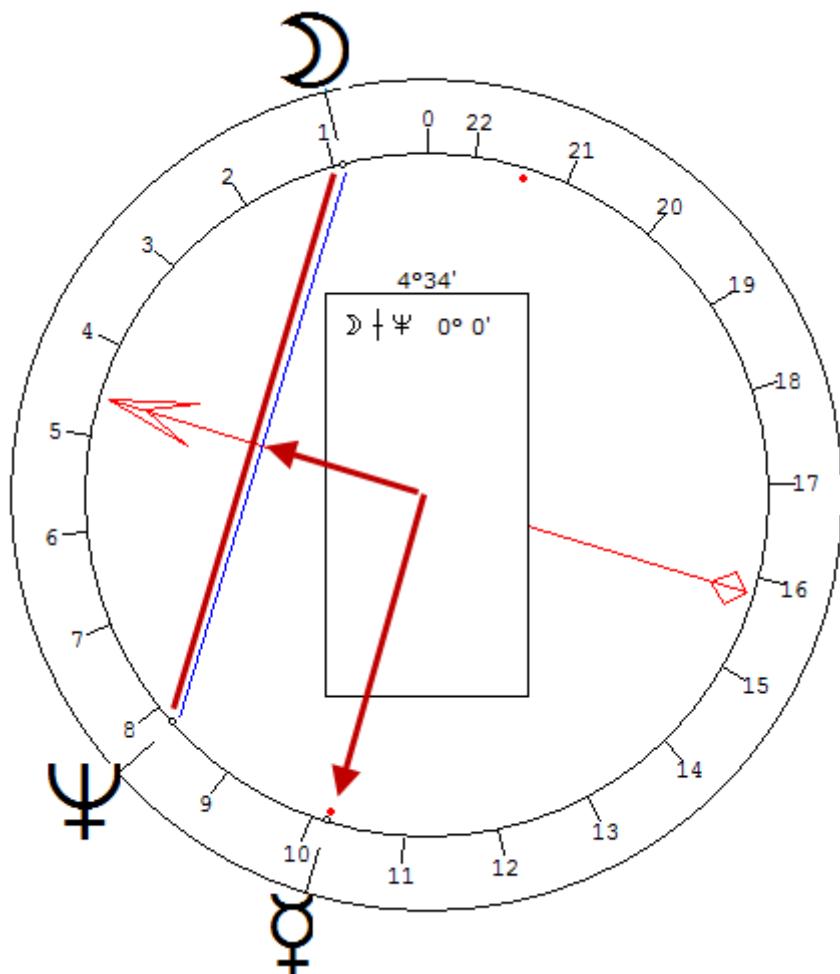

$$\mathfrak{D} = \mathfrak{Q} / \Psi$$

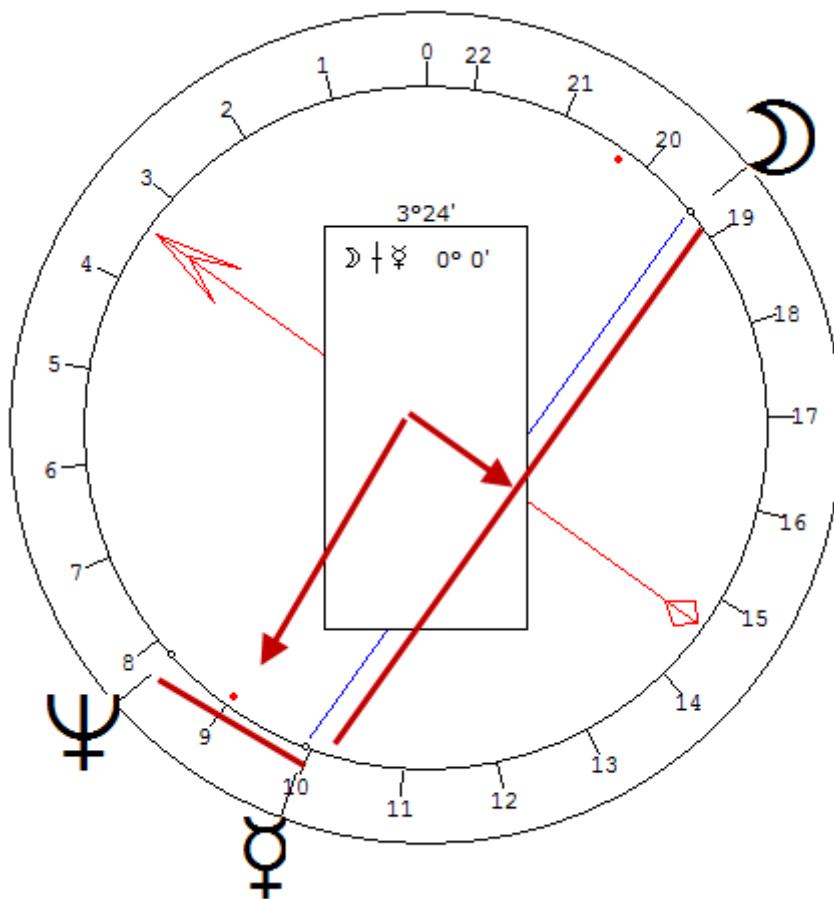

$$\Psi = \odot / \varphi$$

$$\mathbb{D}/\Psi = \mathfrak{Q}$$

$\mathbb{D}/\mathfrak{F} = \mathfrak{F}/\Psi$

In some cases , however, we do not have in Natal these planetary pictures. Only after the outbreak of the disease do these planetary pictures appear. It may be because we have only to use harmonic 16 because of many uncertain and rounded birth times.

Used :

1-Sidereal zodiac, Krishnamuti Ayanamsa.

Ayanamsa $23^{\circ}45'56''$ for Year 2000. Speed of precession is 50.2388475.

2-Solar,Lunar,Progressed Lunar and secondary progressions.

2-Progressions Keys :

Secondary Progression : 1 sidereal day = 1 sidereal year

Kearns, Robert

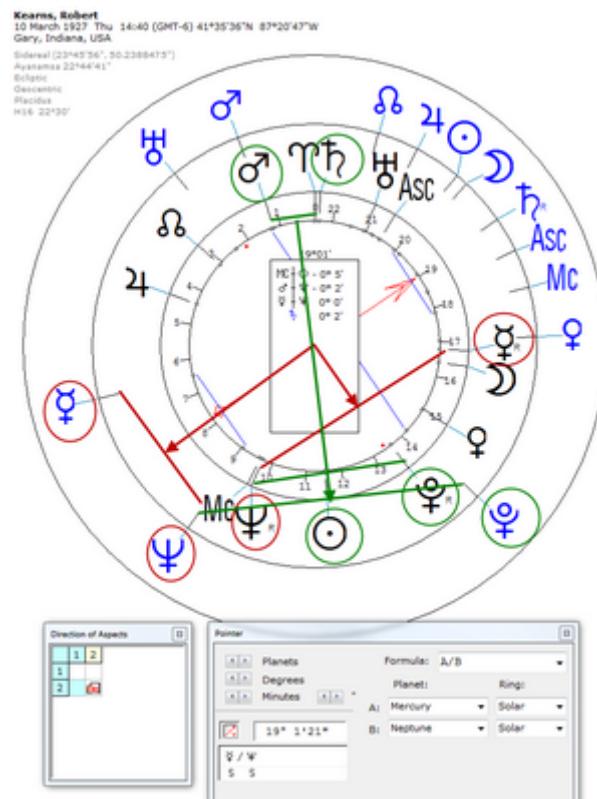

10 March 1927 at 14:40 (= 2:40 PM)Gary, Indiana, 41n36, 87w21

https://www.astro.com/astro-databank/Kearns,_Robert

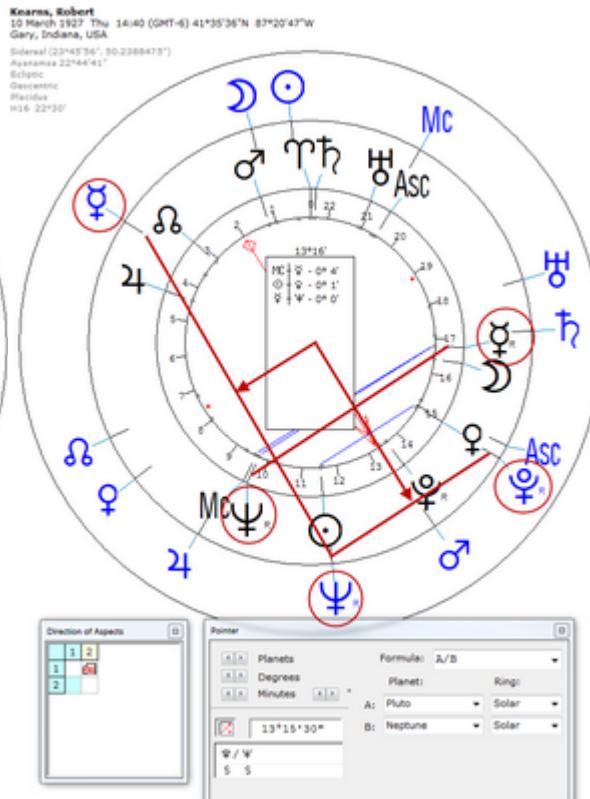

On 9 February 2005, Kearns died of brain cancer complicated by Alzheimer's disease in Baltimore, Maryland.

Wagner, Edgar R.

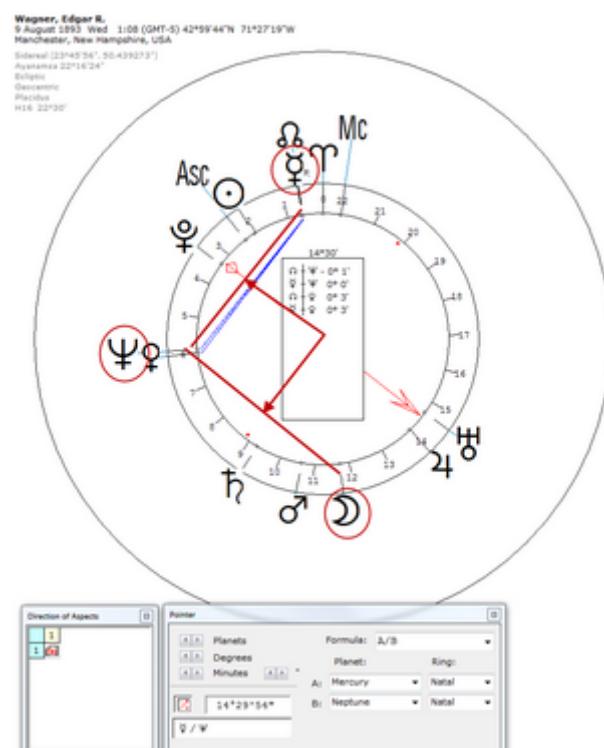

9 August 1893 at 01:08 (= 01:08 AM) Manchester, New Hampshire, 43°N, 71°W

American Chemistry Consultant who became an astrologer and researcher, specializing in Uranian.

https://www.astro.com/astro-databank/Wagner,_Edgar_R.

He disappeared in 1985 from his New York apartment and was never found.

Natal Harmonic 16

$$\odot/\psi = \varphi/\psi$$

$$\psi = \odot/\varphi$$

$$\odot = \varphi = \psi$$

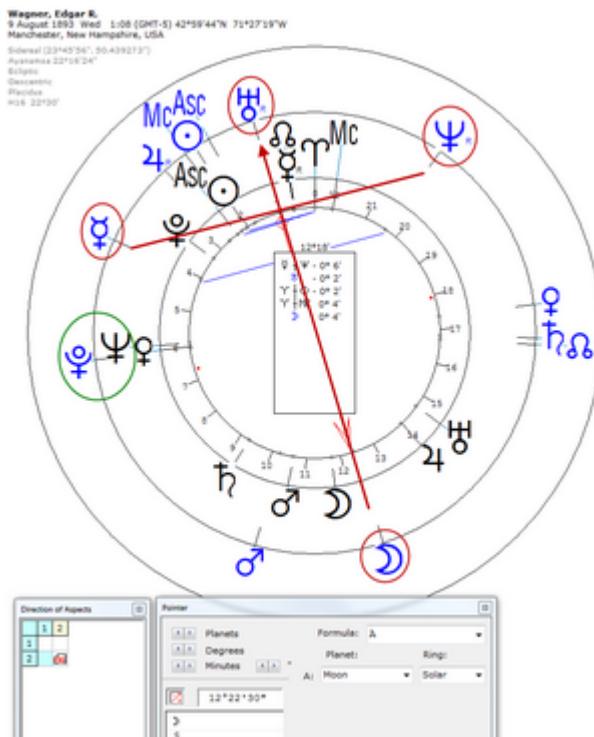

He disappeared in 1985 from his New York apartment and was never found.

Of course, we would have to know if it's before the birthday or after the birthday has disappeared, so we know what kind of solar to do.

But he is, in my opinion, disappeared before 9 August 1985.

Because Solar 1984 (valid from 10.09.1984 to 09.08.1985) shows :

Solar ☿ = Solar ☽ = Solar ♀/Ψ
 Solar ♀ = Natal ☽ = Natal ♀ = Natal Ψ
 Solar ♂/☿ = Natal ○

Oatis, William N.

7 January 1914 at 16:00 (= 4:00 PM) Marion (Grant County), Indiana,
40°34', 85°40'

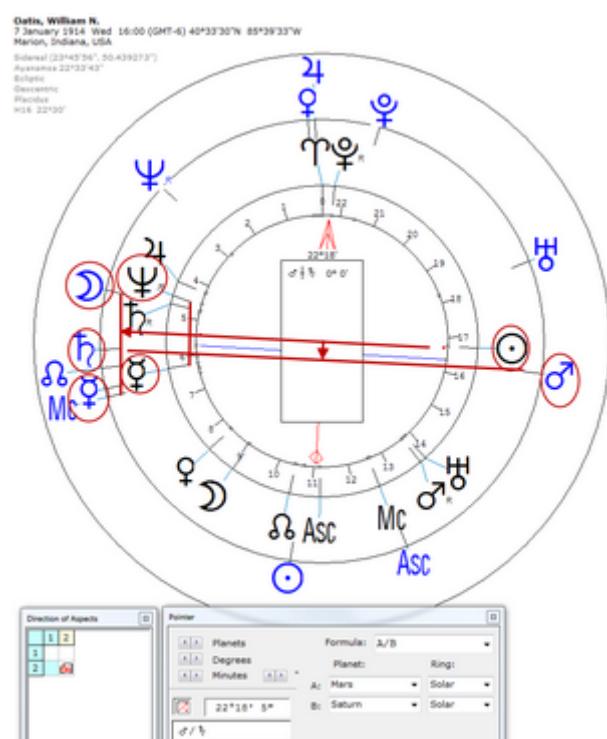

American journalist.

https://www.astro.com/astro-databank/Oatis,_William_N.

Oatis died on 16 September 1997 at Long Island College Hospital in Brooklyn, New York from complications of Alzheimer's disease.

Harmonic 16

Secondary Progression

$$p \sigma^{\text{♂}}/\text{☿} = p \text{☽}/\text{♀} = \text{Natal } \text{♀}/\text{☽} = \text{Natal } \odot$$

Leigh, Dorian

23 April 1917 at 05:00 (= 05:00 AM)San Antonio, Texas, 29n25, 98w30

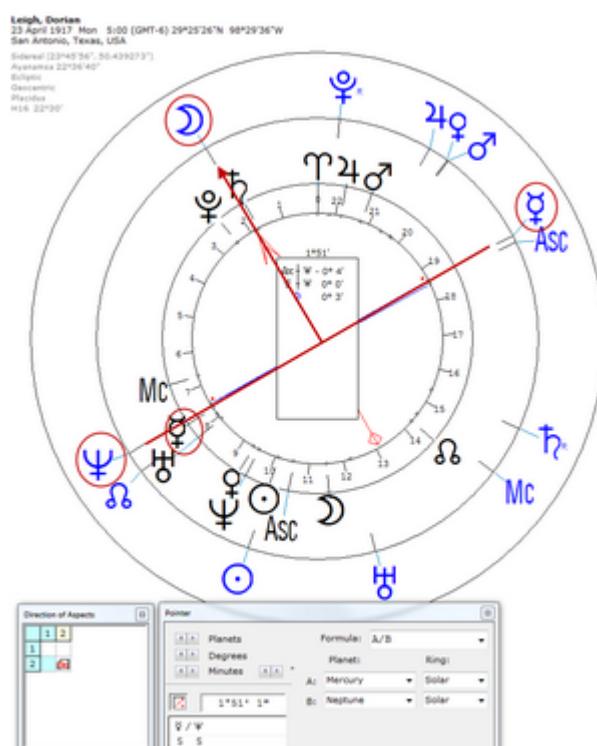

American model, one of the earliest modelling icons of the fashion industry.

https://www.astro.com/astro-databank/Leigh,_Dorian

Dorian died in a Falls Church, Virginia nursing home from Alzheimer's disease at the age of 91 on 7 July 2008.

Harmonic 16
